# TECHNICIANS FOR THE WORLD

Thinking about a career as a Cat® dealer technician? Start with Technicians for the World, a free online learning program built to teach you the basic understanding of Cat equipment systems.

## Who Should Enroll?

Anyone who wants to learn the basics of diesel engines, electricity, hydraulics, power train and much more.

- Boost your technician training knowledge and feel more confident on the job.
- Open to all experience levels.
- Available globally in 250 countries, with courses offered in multiple languages.

## What Courses Are Offered?

You'll have access to 22 courses, each designed to give you a solid foundation in topics including:

- Cat Machines Product Line
- Introduction to Engines
- Introduction to Electrification Technology

## How Long Will It Take?

With Technicians for the World, you'll progress at your own pace. It typically takes about 25 hours, or anywhere from three to six months, to complete.
